

Changes Made:

Changed Contrast in Navigation Bar

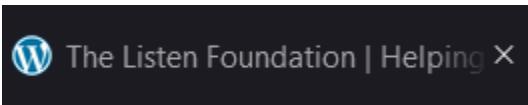

The WAVE tool indicated a bad contrast between the text in the navigation bar and the background. So, we changed the colors so that the contrast was improved.

Old	 A screenshot of the Listen Foundation website homepage. The header features a blue navigation bar with white text. The logo 'LISTEN FOUNDATION' is on the left, followed by links for Home, About, 2022 Non-Event, Programs, News, CI Camp, Donors, Contact, and a blue 'Donate' button. Below the header is a teal banner with white text: 'See our COVID-19 Support page for information about how to cope with this disease and how it affects families with children who are deaf or hard of hearing.' The main content area has a large photo of a smiling girl at a desk with school supplies. Overlaid on the photo is the text 'Helping Children Hear, Listen, Talk' and a description of the foundation's mission. A blue 'DONATE' button is visible in the bottom right corner of the photo area.
New	 A screenshot of the Listen Foundation website homepage. The header features a dark teal navigation bar with white text. The logo 'LISTEN FOUNDATION' is on the left, followed by links for Home, About, 2022 Non-Event, Programs, News, CI Camp, Donors, Contact, and a blue 'Donate' button. Below the header is a teal banner with white text: 'See our COVID-19 Support page for information about how to cope with this disease and how it affects families with children who are deaf or hard of hearing.' The main content area has a large photo of a smiling girl at a desk with school supplies. Overlaid on the photo is the text 'Helping Children Hear, Listen, Talk' and a description of the foundation's mission. A blue 'DONATE' button is visible in the bottom right corner of the photo area.

Changed Page Title

New title is: "Home | The Listen Foundation"

(from The Listen Foundation | Helping children who are deaf or hard of hearing listen, speak, and interact normally.)

Old (went off the screen)	New
	Home The Listen Foundation 

Changed the h4 headers to h3

The old headings skipped from h2 to h4, so this has been fixed

Old	New
<p> News and Stories</p> <p>  Music Together Within Therapy</p> <p>Classes</p> <p> Visit the Music Together Page</p> <p>  *NO ACCESSIBLE NAME*</p> <p> 2021 Director's Letter</p> <p> Read More</p> <p> The 2022 CI Family Camps were a Big Success!</p> <p>  *NO ACCESSIBLE NAME*</p> <p> Help Make a Difference!</p>	<p> News and Stories</p> <p>  Music Together Within Therapy</p> <p>Classes</p> <p> Visit the Music Together Page</p> <p> 2021 Director's Letter</p> <p> Click Here to Read About the 2021 Director's Letter</p> <p> The 2022 CI Family Camps were a Big Success!</p> <p> Help Make a Difference!</p>

Grouped Some Items on the Navigation Bar

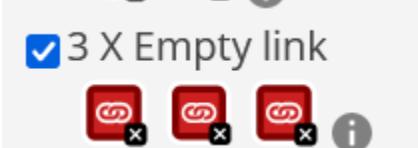

Previously, the “Programs” section of the navigation bar would go off screen on some screen sizes. Grouped three of the elements so that this wouldn’t happen.

Old (window made smaller to show navigation issues)	New
<p>The Old version shows a horizontal navigation bar with a 'Programs' dropdown menu that is too wide for the screen, causing it to overflow and appear below the main menu. The menu items include Home, About, 2022 Non-Event, Programs, News, CI Camp, and Donors. A 'Contact' link and a 'Donate' button are also present.</p> <p>For information about how to cope with deaf or hard of hearing.</p> <p>Helping Children Listen, Talk</p> <p>A Colorado non-profit dedicated to helping families with children who are deaf or hard of hearing reach their best spoken language outcome through Listen & Language Therapy.</p> <p>DONATE</p>	<p>The New version shows a more organized navigation bar. The 'Programs' section is now part of a larger group labeled 'Listen's Programs' (which includes COVID-19 Support, Therapy Funding & Therapists, and Community Events). Other menu items like Music Together Within Therapy, Parents Listen and Chat, Audiologists Listen and Chat, Listen and Chat, Help for Parents, Parents Connecting with the World, Hearing First Community, and ACI Alliance are also grouped under this category. The 'Programs' group is expanded to show all these sub-options.</p> <p>Home About 3 2022 Non-Event Programs 3 News 3 CI Camp 3 Donors 3 Contact Donate</p> <p>For information about how to cope with this disease a</p> <p>Children Hear, Talk</p> <p>It dedicated to helping famili</p> <p>af or hard of hearing reach t</p> <p>and mainstream outcome thr</p> <p>en Language Therapy.</p>

Removed Empty Links on Videos

Previously, the three youtube videos on the homepage had an empty link as the play button. The empty link has been removed as a link there is entirely unnecessary (videos don't need the link to play).

Note that the “play” button doesn’t show up correctly on our version of the website, due to us not having full access to the CSS—everything will look normal if our code is used on the official site.

Old	New (no empty link indicator from WAVE)
 	
	

Removed Fake Headings

There were a few headings that were completely empty, so these have been removed.

Old	New
<p><input checked="" type="checkbox"/> 2 X Empty heading</p> <p>  </p> <p> </p> <p> 2021 Director's Letter</p> <p><i>"My son said, "I've finally found my people." This camp was filled with love and joy. We will be back and can't thank you enough for the joy you have given our family."</i></p> <p> </p>	<p> 2021 Director's Letter</p> <p><i>"My son said, "I've finally found my people." This camp was filled with love and joy. We will be back and can't thank you enough for the joy you have given our family."</i></p>

Addressed the Tabbing Issues

Previously, there were issues with tabbing between elements. We don't have access to the CSS, so we provided some recommended CSS that, if implemented, will highlight the currently selected links in red.

The code:

```
1 select:focus, select:active, input:focus, input:Active, input:focus + label, input:active + label, label[for]:focus, label[for]:active {  
2     color: #FFF !important;  
3     background-color: #BB3D2F !important;  
4 }
```
